Items of good work:

Over three days throughout the month myself and the Town Centre team have been running safety stalls in the area of Tonbridge Town Centre to raise awareness around personal safety and keeping valuables safe. Collectively 530 Purse chains were given out along with a number of Personal attack alarms.

Crime Prevention Information:

- Abandoned vehicles can be reported to the council for removal, this can be done via the Tonbridge and Malling Borough Council website.
- The tips below can help to prevent you from becoming a victim of theft from your home and garden.
- Install a shed alarm, with a notice displayed to warn thieves that it is not worth the effort of breaking in. The alarms are easy to install and can be purchased at most DIY stores.
- Make sure the door is always securely locked.
- Ensure all valuable property is marked with your postcode. Post coding property makes your belongings very unattractive to a thief by making items easily identifiable and difficult to sell.
- Lock up pedal cycles. Use bike locks and chain them inside to other large items or to the shed.
- Keep a record of the make, model and ID numbers of bicycles and all other equipment and take photographs of unusual items.
- Check your household insurance policy to ensure that the value of things stored inside is covered by your contents' policy.
- Please make all reports of ASB via 101, the online reporting form or 999 in an emergency.
- The Community Support Unit can gain a better picture where reports have an official reference number so we can collate data effectively.

Journey

Journey ensures safe travel by providing real-time updates as users move between two places.

Reports

Reports allow users to record and geotag incidents within the app. All reports will get saved to the users account, not on the device.

Meeting

Meetings allow users to identify when they are going to a meeting with a risk factor. An alert is automatically created.

Duress Pin

If the user is forced to deactivate their Alert, they can use an emergency duress pin, which will escalate the alert as more severe.

Man Down

For users in situations where injury or personal immobilisation is a possibility by flagging sudden deceleration, non-movement & impact.

Alert Profiles

Users can pick the alarm profile appropriate for their situation. Stealth silently raises an alert, whereas deterrent activates flash and alarm.
